

Bud's Whitepaper

Copyrights Babybud.store 2022

Our Scope

We, at Baby Buds, are starting up our own Cannabis Club in Ottawa, Canada. Our vision includes Marijuana VR Displays, limited edition bong, special NFTs, and much more! Baby Bud isn't just an NFT, It's rather a gateway to our society. With much knowledge to share and an entertaining environment, we want to make crypto safe and fun for members. Our scope is to be the first legal online Cannabis store in North America to use Cryptocurrency only.

The only way to access our exclusive discord (<https://discord.gg/PnbTK4XG3h>) And our Private Telegram (<https://telegram.me/collablandbot?start=VFBDI1RFTCNDDT01Nly0xMDAxNzc1MTMwODY5>) is by holding one of our Baby Bud NFTs!

We believe that any project launching should have a well calculated road ahead. We started up with the Baby Bud NFTs to raise funds for the token. Due to our excellent strategy, we will push for volume on TofuNft.com for one full week before launching our presale after the NFTs finish minting, giving the early investors to sell or auction their NFTs to new investors. 2 Buds will whitelist the investor's wallet and will give him access to the presale held on Degem.io.

NFTs

Our NFTs are composed of hand drawn traits and every single image is at a full 4k resolution. Having no compression on the Buds, they tend to be quite heavy!

- Minting and holding 2 Nfts will automatically get you whitelisted for the BUD token Presale

- NFT Tier Benefits

- First 1250 NFTs will be priced at 0.2 BNB

- Last 1250 NFTs will stand at 0.4 BNB

- 80% of the mint will go towards marketing, research and development.
20% will fund the team and partnerships.

Token

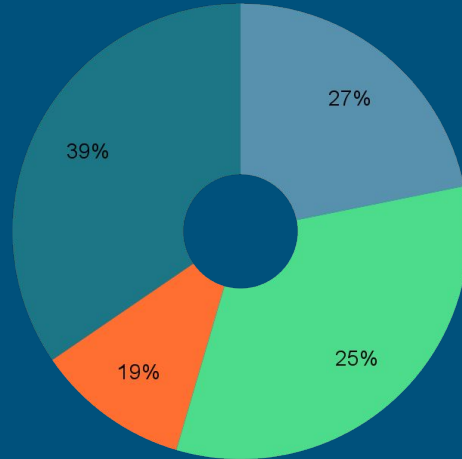

The BUD token will get audited by Certik and have Skynet monitor the contract. Holding BUD will grant you access to special discounts, events and giveaways. Our token's purpose is to be the main currency on our Cannabis web store.

Tokenomics:

Low 7% total tax, where 4% is the marketing fee and 3% is the dev fee.

Supply Allocation

- Pancake Swap
- Staking
- Locked
- Degem IDO

Road Map

- Phase 1

- Develop the Bud's ecosystem
- Build a Website
- Launch NFT minting contract on BSC
- Develop Back end and front end for the Minting app
- Set up Bud's Social Network
- Mint 2500 NFTs
- List NFTs on TofuNFT
- Marketing push
- Certik Audit with Skynet Integration
- Whitelist BUD token presale on Degems Platform
- List Bud on Pancakeswap
- Token Staking

- Phase 2

- Launch NFT contract on Cronos
- Build Cronos Community
- Marketing push, AMAs...
- Launch Cronos NFT minting App
- Mint 2500 NFTs
- List Nfts on Cronos Marketplace
- Animate 3D BUD NFT
- Implement AI within Bud

- Phase 3

- Official licensing in Ontario
- Online Cannabis themed marketplace with exclusive access to NFT holders.
- Discounts for NFT holders
- Special item drops for NFT holders
- Big Bud Event where all the stoners gather in Ontario for a huge smoke session. (Yes, It's legal)
- Bud Token as the main currency within our Ecosystem
- Expansion to Portugal

Marketing

Our clever marketing strategy was to first bring together a wonder team. From there, we use as much exposure channels available to get ourselves out there. With big names and powerful connections, we know how to chronologically set up every piece of magic we have in the box for solid sustainability. From call groups to billboards, we will make sure that every stoner in North America will recognize Bud.

Team

- Daniel, CEO & Head Developer
- Ray & Sassy, VPs, Marketing Heads
- Immortal Eth, Main Consultant and Marketing Partner
- Artist X, Discord and Artwork Manager
